Chris,

IRIS is mentioned in S&T program project description for FY2019 activities:

●■■■■■■■ **IRIS and PPRTV Assessment Tools:** IRIS, Provisional Peer-Reviewed Toxicity Values (PPRTVs) and advanced exposure assessment tools provide technical support to help inform EPAs clean-up decisions at contaminated Superfund, Brownfields, and hazardous waste sites, as required by RCRA and CERCLA.

The Agency is currently reviewing the IRIS program to ensure it supports the Agency's highest public health decision-making, and its role in supporting the TSCA program.

Eric Burman, Acting Senior Budget Officer

Office of Program Accountability and Resource Management

OCFO gave hardcopy only and is not releasing a PDF, so it will take longer to answer this question as IRIS references will appear in several places.
